4. You can find Registration Closes Countdown and Course Schedule only in **NEXT Type** :

The screenshot displays the IAOM US NEXT website interface. The main header includes the IAOM US logo and navigation links: Fellowship, SCI, Residency, Certification, Courses, About Us, and a Login button. The main content area features a large blue banner with the text "A Complete Clinician's Approach to Musculoskeletal Management of the Cervical Spine" and an image of a clinician performing a physical exam on a patient's neck. Below the banner, the "Course Description" section provides details about the 24 Education Hours (8 Hours - Online Self Study + 16 Hours - Online Instructor-led Training) and the course content, which includes an in-depth look at upper and lower cervical spines pathoanatomy, functional instability, headaches, temporomandibular dysfunctions, and clinical examination of the cervical spine. To the right of the description, a "Registration Closes in" countdown timer shows 08 Days, 10 Hrs, 07 Mins, and 57 Secs. Below the timer, a "Course Schedule" section lists the dates and times for the course sessions: March 30, 2022 (5:00 pm to 7:00 pm, Pathoanatomy), April 6, 2022 (11:00 am to 1:00 pm, Clinical Exam and Interpretation), April 13, 2022 (3:30 pm to 5:30 pm, Treatment - Hands on Management Strategies), and April 20, 2022. A "Privacy & Cookies Policy" link is visible in the bottom left corner.

Course Description

24 Education Hours: 8 Hours - Online Self Study + 16 Hours - Online Instructor-led Training

IAOM US NEXT combines online courses with Online Instructor-Led Training (OILT). You get a very personalized mentoring experience from the comfort of your favorite learning environment.

The IAOM US NEXT Approach to Complete Clinician in Musculoskeletal Management of Cervical Pain takes an in-depth look at upper and lower cervical spines pathoanatomy (including primary and secondary disc dysfunctions, radiculopathies, zygapophysial pathologies, functional instability, headaches, temporomandibular dysfunctions associated with cervical dysfunctions, etc.), basic and specific clinical examination of the cervical spine, clinical interpretation and differential diagnosis, management.

How to add this course type to the shop

1. Click on **Products** on left side bar and then go to **Add New** :

2. Add **Course Name** here :

3. Add **Course Description** here :

Note - Must click on this to add course description.

The screenshot shows the 'Add New' form for 'Course Description'. The 'Course Description' tab is selected and highlighted with a red box. Below it, the 'Add custom description' checkbox is checked and circled in red. The main content area is a rich text editor with a 'Paragraph' dropdown and various formatting tools. The right sidebar contains settings for user access, tags, and redirects.

4. Add **Description Content** here.

5. Add **Custom Course Objectives and Goals** here :

Note – Must click on this to add custom objective and goals.

The screenshot shows the 'Add New' form for 'Course Objectives and Goals'. The 'Course Objectives and Goals' tab is selected and highlighted with a red box. Below it, the 'Add custom objectives and goals' checkbox is checked and circled in red. The main content area is a rich text editor with a 'Paragraph' dropdown and various formatting tools. The right sidebar contains settings for product tags, image, and gallery.

6. Add **Objectives and Goals Content** here.

7. Select **Course Type** :

Note - for NEXT course select **NEXT Course Type**.

The screenshot shows the 'Add New' course form. On the right sidebar, the 'Course Types' section is expanded, showing a list of options: Downloadable, Live Course, Membership, **NEXT Course** (selected), Online Course, and Webinar Course. A red box highlights this entire section, and a red circle highlights the 'NEXT Course' option. A blue arrow points from the instruction text to this selection. Other visible elements include a map of Melbourne, a 'Venue Address' search bar, and a 'Contact Information' section at the bottom.

8. Now you are able to **schedule your course** in which you can select start-date, end-date and title.

The screenshot shows the 'Add New' course form with the 'Course Schedule' section highlighted by a red box. The 'Course Category' dropdown menu is open, showing 'Beyond Manual Therapy Courses' as the selected option, with 'NEXT Course' circled in red. A blue arrow points from the instruction text to the 'Course Schedule' section. The 'Course Schedule' section contains a table with columns for 'Date *', 'From *', 'To *', and 'Title *', and an 'Add Row' button. Other visible elements include the 'Product categories' and 'Body Regions' sections on the right sidebar, and the 'Venue Name' and 'Venue Address' fields at the bottom.

9. Select **Body Regions** and **Product Categories**:

The screenshot shows the 'Add New' product page in WooCommerce. The left sidebar contains navigation links for Products, Analytics, Marketing, Appearance, Plugins, Users, Future, Tools, Settings, Shortcodes, WP Mail SMTP, and Feeds for YouTube. The main content area includes fields for 'Word count: 0', 'Course Pre Approved States', 'Global Start and End Dates for All Courses', and 'My Courses Page - Link Product to Course'. The right sidebar features two sections highlighted with red boxes: 'Product categories' and 'Body Regions'. The 'Product categories' section shows a list of categories with checkboxes: Beyond Manual Therapy, Certification, Dry Needling, Hand & UE Track, Musculoskeletal, and SenMoCOR. The 'Body Regions' section shows a list of body regions with checkboxes: Cervical, Distal Upper Extremities, Foot and Ankle, Hip and Pelvic, Knee, Lower Quarter, Lumbar, and Shoulder. Both sections have a '+ Add new category/region' link.

10. You can add deadline for registration here :

Note – Must click on **Enable Post Expiration**.

The screenshot shows the 'Add New' product page in WooCommerce. The left sidebar contains navigation links for Protected Content, GDPR Cookie Consent, Instructors, HT_Courses, Descriptions, Course Path, Partners, WooCommerce, Products, Analytics, Marketing, and Appearance. The main content area includes fields for 'Word count: 0', 'NEXT Course', 'Course Category', and 'Registration Closes'. The right sidebar features a section highlighted with a red box: 'PublishPress Future'. This section contains a checkbox labeled 'Enable Post Expiration' which is checked. Below this checkbox are fields for 'Year' (2022), 'Month' (March), 'Day' (21), 'Hour (GMT-0700)' (05), 'Minute' (26), and 'How to expire' (Draft). Below the 'PublishPress Future' section is the 'Product categories' section, which is partially visible.

11. Select the course page/post user can access it after purchase. (This courses are appear on **My Courses** page.)

The screenshot shows the 'Add New' product page in the AccessAlly plugin. The left sidebar contains various settings and tools. The main content area is titled 'Add New' and includes a section for 'My Courses Page - Link Product to Course'. This section has a 'Select Course' dropdown menu with a search bar and a list of courses. A red box highlights this list, which includes 'About the IAOM-US', 'Accessibility', 'Acute Lumbar Spine - Acute Disc Pathology', 'Acute Lumbar Spine - Acute Pathology', 'Acute Lumbar Spine - BCE', and 'Acute Lumbar Spine - BCE Interpretation'. Below this is a 'Product Prices by User Roles: Per Product Settings' section. On the right side, there is a 'Product image' section with a red box around it, containing a link to 'Set product image'.

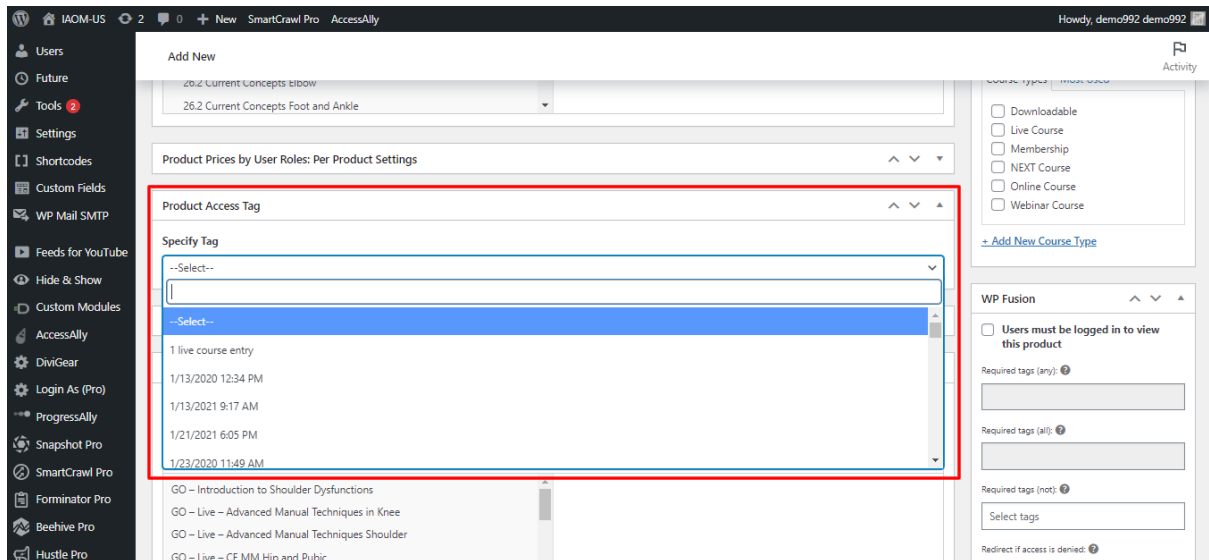

12. Set **Course image** here :

13. Set Course **Price** here :

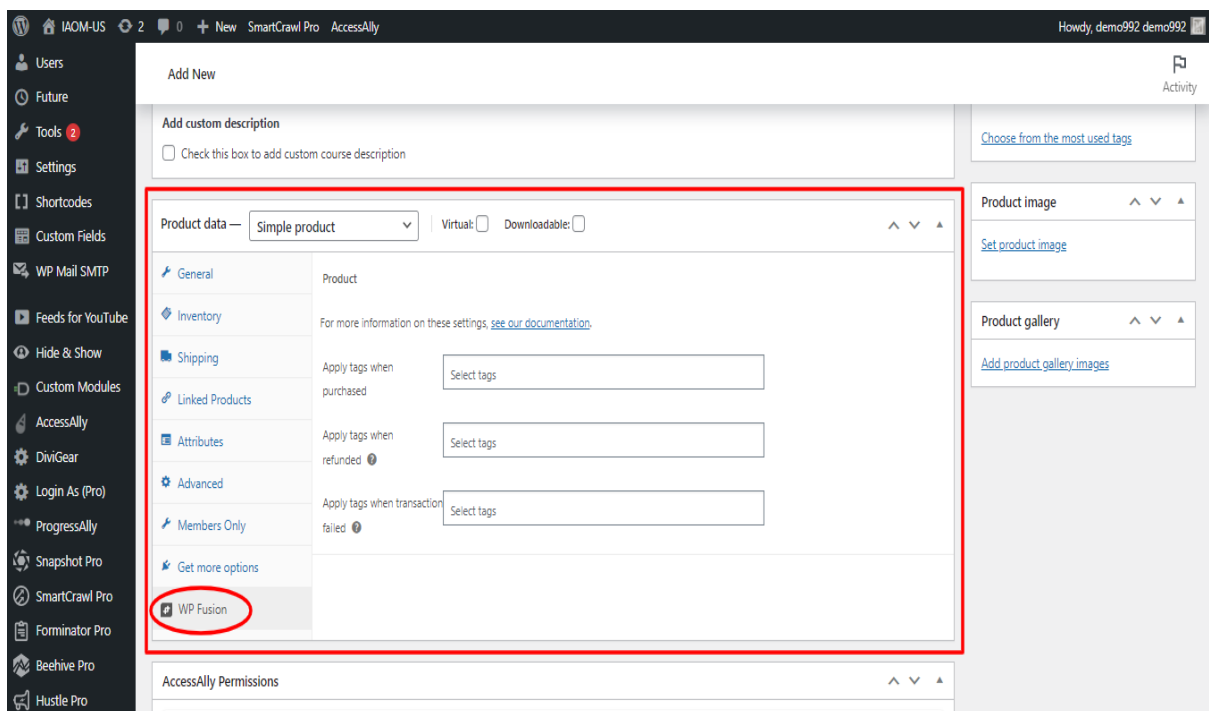

The screenshot shows the 'Add New' product page in the AccessAlly plugin. The left sidebar contains various settings and tools. The main content area is titled 'Add New' and includes a section for 'Product data'. This section has a dropdown menu for 'Simple product' and checkboxes for 'Virtual' and 'Downloadable'. Below this is a 'General' section with a red box around the 'Regular price (\$)' and 'Sale price (\$)' input fields. A blue arrow points from the text 'Set Course Price here :' to the 'Regular price (\$)' field. There is also a 'Schedule' link next to the 'Sale price (\$)' field. Below the 'General' section is a 'Members Only' section with a 'Get more options' link. At the bottom, there is an 'AccessAlly Permissions' section.

How to tag this course type

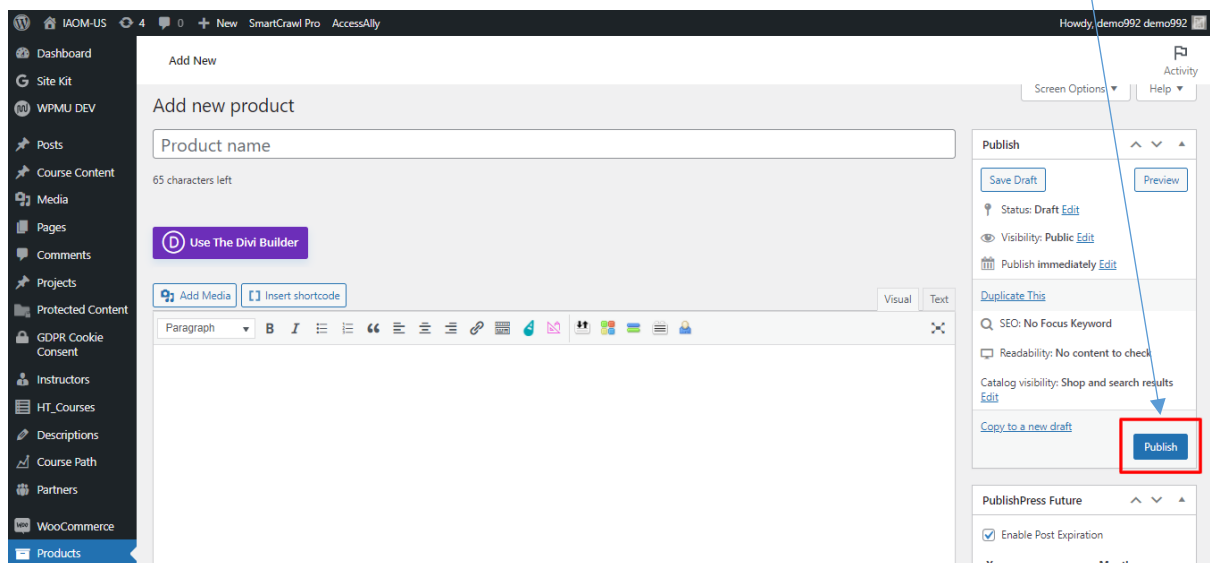

14. Every course is associated with a **Product Access Tag**. While adding a new course, **specifying Access Tag** is necessary. This tag is responsible to access the course after purchasing by matching existing tag in user profile.

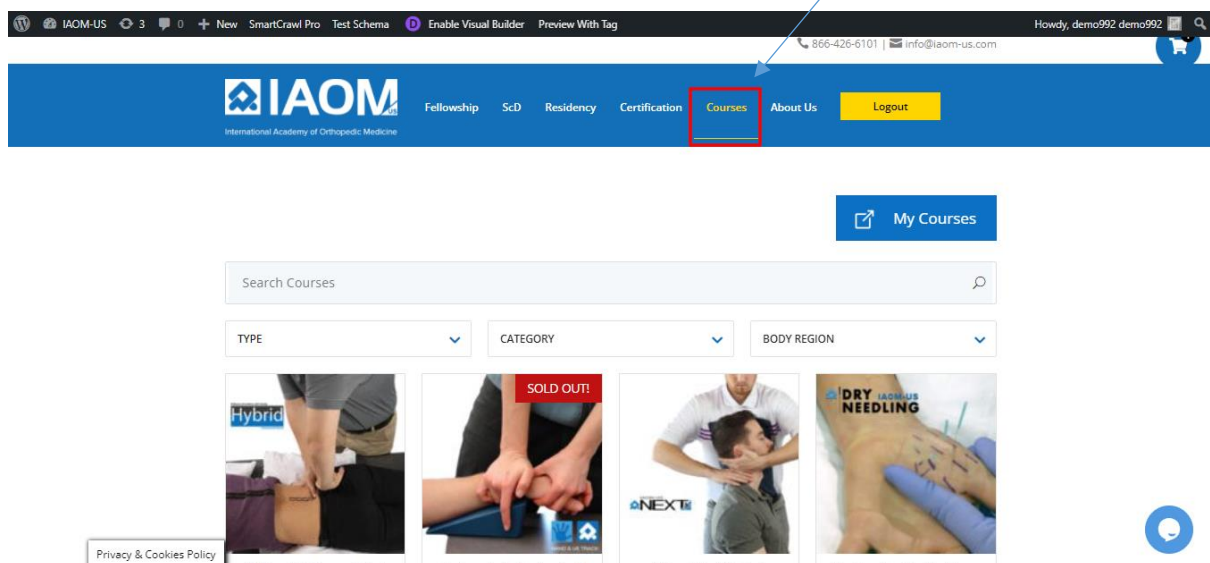

15. Whenever a new course is added, one must go to the **WP-Fusion** in the **Product data** (course data) section and select necessary tag. This tag are apply in user profile while purchasing this course (Back-end Process).

16. After set all details of New Course Finally can Publish this course by clicking on **Publish** :

17. Now check added new course on the **front-end** here in the **Courses** page :

18. Also check full course details by clicking on that course.

A Complete Clinician's Approach to Musculoskeletal Management of Temporomandibular Dysfunctions

Course Description

16 hours of education – Temporomandibular joints (TMJ) and/or masticatory muscles are a common source of jaw, facial pain and headaches which contributes to functional limitations associated with chewing, talking, and yawning. The IAOM-US NEXT Approach to Complete Clinician in Musculoskeletal Management of Temporomandibular Dysfunctions course will discuss pathoanatomy and joint mechanics of the TMJ and cervical spine, TMJ evaluation and cervical spine screenings to diagnose the common subsets of TMD. Differential diagnosis and treatment approaches will be covered for TMD to include patient education, modalities, exercises, and manual procedures, special topics on how the cervical spine influences on the management of TMD, and potential associations with headache. The team approach between the physical therapy and alternative disciplines will be addressed as well.

NEXT "A Complete Clinician's Approach to Musculoskeletal Management of Temporomandibular Dysfunctions" is an online instructor-led training (ILT). So, the participants get a very personalized mentoring experience from the comfort of their favorite learning environment. Each week, course participants will log in and receive 2 hours of live skills enhancement around certain patient care considerations – all on a specific case study prepared to develop the knowledge and skills to become a complete clinician. This way participants can see the systematic approach, combining updated evidence and clinical experience/expertise, as it applies to the same case study.

The IAOM-US NEXT Approach to Complete Clinician in Musculoskeletal Management of Temporomandibular Dysfunctions course offers a mix model of training to give participants a complete educational experience at their own convenience and pace.
